NEWSPAPERHRCHIVE®

Gettysburg Compiler. Dr (Bot) July 5 - A blood curdling Michigan, who advertised a balloon ascension, met his deat! The Professor, was a daring man, advistised to an numeuse concourse at people as em ectalors, it collapsed, the ropes drop-

Detroit, July Pth, Crys * Pho man who ost his life by falling from the bot an oalloon at Jone Much on the Fourth was known is I dward Li Moutain He was not the real Piot La Montaine who accompanied Piot Wise, Ma Gaiger Hyde, in the famous trip from s to Jefferson county, N Y hed about are your ago. The late of La Montaine" assumed he

Trior La Montaine, assumed his name, and traded on his reput tition in a most unwarrent ble manner. He was entirely destructed by sentials knowledge and his antimely end by falling it half mile through tho air was owling to reckless ignorance.

nall piest ten, sommand and in and around Catesyillo write sudde fly shrifted by a most terribe explosion of the maga-zine of the Coal and Iron company, situated some distance from the village frairal Every vestigo of the once whilly constructed migraria was ob-literated and for a distance of hy-hundred yards in every direction the earth was cut into give the miss skylo-or soverty feet deep. Countries had been found up by the needs some of them have build for a distance of many bring high d to a distinct of ministration while others seemed as it they had been overtiden by the minimums misses of cutth and rick unit partially buried admost where they At the time of the explosion there

At the time of the explosion there were stored in the magazine seven hundred paradised ginns powder and seventy pounds of introglycome. Shortly believes the men were seen in the vicinity, who were troopered, and who are generally supposed to have been the cause of the deaster. The inhabitants I cleave them to have entered this building in some with o steel powder. April 1972 the present theorem means when the property of the means for the Pourth of July, and that, by unleaves means after the some lower powder. If yet the present the no one knows when this magnetic the property of the means for the pourth of the means for the pourth of the countries to whom, no death, many went home to spend respect yet. If you want to buy a flat in style chap to the countries to whom, no death, many went home to spend respect yet. No tive of any bodies has set been

north thomas to spend exhibit year.

No trice of any bodies has set been found though hye hundred might had his math the pendenois masses of cittle displicted by the awint lone of the explenois. The greatest excitement previous.

AN ERONAUTS PERILS

M. Frank & King, son of Professor S. A king of Boston, who made a billion ascerssion from the Limelle value four ground, Morristown, Vermont, on the Londillo white fan ground, Morristown, Vermont, on the Londillo mice of his, had a perilone experience. When alout fore and halt mices up he encountried association metric after the wild part and about cight miles from where the ascent was made. Not he unique my bound for tysisto minutes after the wild part and about cight miles from where the ascent was made. Not he unique my had a bout forty-site minutes after the wild part and about cight miles from where the ascent was made. Not he unique my had a bout forty-site minutes after the wild proposed that their wild had bout flower ordered and young King came out about the same time of the strength of the first of preventive and restorate medicines the number of the surface and the many for all the wilderness at most forty eight hours without any for all the ways a bear came without the wilderness at most forty eight hours without any for all the ways a bear came without the wilderness at most forty eight hours without any for all the ways a bear came without the wilderness at most forty eight hours without any for all the ways a bear came without the view of the first of the ways a bear came without the view of the first of the v

The tornulors or limite mes with which the Western country is visited nearly four thousand persons, one third of every summer to usually quite limited whom were Chinese and Japanese both as to then duration and extent, They stacke suddenly, out a narrow with ratastrophe occurred at Ionia, yearci-day afternoon, by which Professor Ed-last wick went wide spread and of long Rec Hou-last wick went wide spread and of long Rec Houcontinuance. Thus the the accounts tell us of their prevalence from the Mesonii rivii il Humbal almost to the castern boundary of Ohio, and from Wesconsin on the north acuty down to Chairment They continued for three there end consecutive days Wednesday, Thurst Backwheat oon accorded about live hundred text, day and Penlay, and they were of coh utul down-pouringsof water, flooding from under the bisket, and the country wherever they passed, de-Professor La Montaino fell within a molishing buildings, destroying the crops, and on Lake Michigan clusting terrible toss of life. The observations of the officers of the sign d strylee corps in the just prior to the outliners of this

We of the soil, who are often at our You know that I will nover give you wits' end as to where we can get the Chapest fertilizers, will see to it that wade to my chin in blood to do it. I their bread cast upon the waters shall their bread case upon the water some law a mer magger than coming," And cettern before very many days; while look out for me; I am coming," And he honor of demonstrating the adaptability of this idea to the wants of large communities will be wholly theirs .--

TO AVOID CUT-WORKS IN CORN. This is the experience of a man in quired: Indiana as told in the Cincinnati (in-

"A few years ago my father had a Effect acre field, well set in timothy, which he wished to put into corn. We commenced breaking it up in February red with heerly and finished before the grass began to grow. When the ground was dry wo was beer that made your nose so red." harrowed it, and cross-harrowed it until it was in fine order, being almost as dry and free from clods as an ash heap, ately, We planted in good time, and it came up nicely; but the cut worm destroyed. A RICH old fellow in a provincial it all, so that it had to be planted over town, who owns more houses than any again, and then replanted after the see- one man in the place, was walted on by nd planting, before we could get any a committee appointed by the citizens thing like a fair stand of corn.

Our neighbor had a field just across fonce about the cometery. His reply

the fence of about the same size. It was characteristic as well as humore was on the same slope, and was the "Gentlemen, I have always made it a same kind of land exactly. It had been rule in my business never to make any in thucthy the same length of time that repairs until the tenants begin to counour field lad. He broke it up late in plain," the Spring, and planted it in corn the same day we did. The grass had gotten such a start, before he commenced whom a maiden liked but her father breaking up, that after the field was didn't, that at a reasonable hour the planted it looked almost as green as a old "gent" mildly intimated that the pasture. His corn came up nicely, and time for retiring had arrived. "I think there was so little of it destroyed by you are correct, my door sir, replied the cut-worms that he did not take the trouble to replant it.

Independent century. "We have been waiting over an hour for you to put

field while we caised a poor one. His good-natured remark was that he fed his worms on grass instead of corn.

CABBAGE WORMS.-Put ten cents you would a floor to lay the dust. The dew at night will wash off the last year, and I have caten some of his which he gravely replied: "Why, gran
